

# Guide on Valuing Unpaid Household Service Work

# Contents

---

<b>List of Tables .....</b>	<b>ix</b>
<b>List of Figures.....</b>	<b>x</b>
<b>Acronyms / Abbreviations.....</b>	<b>xi</b>
<b>Chapter 1 Introduction, Overview and Main Conclusions .....</b>	<b>1</b>
1.1 Why this Guide? .....	1
1.2 Importance of unpaid household service work.....	2
1.3 Overview of the Guide .....	3
1.3.1 Chapter 2: Concepts and definitions .....	3
1.3.2 Chapter 3: Methodological approaches.....	4
1.3.3 Chapter 4: The structure of household satellite accounts .....	5
1.3.4 Chapter 5: Implementation and measurement challenges.....	6
1.3.5 Chapter 6: Reporting.....	6
1.3.6 Chapter 7: Country-specific case studies .....	6
1.3.7 Chapter 8: Current and future research work.....	7
1.4 Main conclusions.....	8
1.5 Summary of recommendations.....	10
Annex 1.1: UNECE survey on national practices on valuing unpaid household service work.....	12
<b>Chapter 2 Concepts and Definitions.....</b>	<b>13</b>
2.1 Introduction .....	13
2.2 SNA production boundary and general production boundary.....	13
2.3 Defining own-use production work of services.....	14
2.4 What activities should be included? .....	17
2.5 Valuing own-use production work of services.....	18
2.5.1 Introduction.....	18
2.5.2 The input valuation approach.....	18
2.5.3 The output valuation approach.....	19
Annex 2.1: Background to Resolution I of the 19 <sup>th</sup> ICLS.....	21
<b>Chapter 3 Methodological Approaches.....</b>	<b>22</b>
3.1 Introduction .....	22
3.2 Data and coverage .....	22
3.3 Classification of activities to be measured .....	23
3.4 Valuation techniques — the input and output valuation approaches .....	24
3.4.1 The input approach.....	25
3.4.2 The output approach.....	31
3.4.3 Comparison between the output and input approaches.....	34
<b>Chapter 4 The Household Satellite Account.....</b>	<b>37</b>
4.1 Introduction to the household satellite account.....	37
4.2 Developing a household satellite account .....	37

4.2.1	A simplified satellite account for own-use production work of services.....	37
4.2.2	A Satellite Account for own-use production work of services with an Extended Production Boundary .....	46
4.2.3	Sequence of extended household accounts .....	52
4.2.4	Impact on national account variables .....	58
Annex 4.1:	Allocation of COICOP codes to intermediate and final consumption, and household capital .....	60
Annex 4.2:	Allocation of intermediate consumption to own-use production work of services activities .....	63
Annex 4.3:	Allocation of household capital to own-use production work of services activities.....	64
Annex 4.4:	Use table at purchasers' prices (excluding extension of the production boundary).....	65
Annex 4.5:	Use table at purchasers' prices (impact of extending the production boundary).....	71
<b>Chapter 5</b>	<b>Implementation and Measurement Challenges.....</b>	<b>77</b>
5.1	Introduction to the chapter.....	77
5.2	The measurement of inputs.....	77
5.2.1	Alternative sources for measuring labour input.....	77
5.2.2	Methodological choices in designing a survey to measure time use .....	78
5.2.3	Summary assessment of different approaches .....	79
5.2.4	Classification of activities to be measured.....	81
Annex 5.1:	Comparison of existing and recommended international activity classifications for measuring time use (mapped to ICATUS 2016).....	83
<b>Chapter 6</b>	<b>Reporting.....</b>	<b>86</b>
6.1	Indicators of own-use production work of services for policy setting .....	86
6.1.1	General indicators .....	86
6.1.2	Specific indicators.....	91
6.2	Periodicity.....	92
6.3	How should measures of own-use production work of services be broken down?...	92
<b>Chapter 7</b>	<b>Case Studies .....</b>	<b>94</b>
7.1	Introduction to the chapter.....	94
7.2	Measuring and valuing unpaid household service work – Canada’s experience .....	94
7.2.1	Measuring own-use production work of services using a time-use survey ..	94
7.2.2	Comparing valuations based on the opportunity cost and replacement costs approach .....	96
7.3	Measuring and valuing unpaid household service work – Australia’s experience....	98
7.3.1	Measuring own-use production work of services using the replacement hybrid approach.....	98
7.3.2	Results .....	99
7.4	How does on-use production work of services affect measured income inequality? – United States .....	100
7.4.1	Introduction .....	100
7.4.2	Data .....	101

7.4.3	Valuing own-use production work of services using the replacement generalist and specialist approach.....	101
7.4.4	Estimating time spent in own-use production work of services using a regression model .....	101
7.4.5	Results.....	102
7.4.6	Conclusion .....	103
7.5	Implementation of the household satellite account of Mexico.....	103
7.5.1	Distribution of time spent on own-use production work of services by individual characteristics, and by each activity .....	103
7.5.2	Comparing valuations of own-use production work of services using the replacement generalist and hybrid approaches. ....	105
7.6	Republic of Moldova’s experience in estimating the value of unpaid household service work.....	107
7.6.1	Measuring own-use production work of services using a time use survey. ....	107
7.6.2	Valuing own-use production work of services using a replacement specialist and generalist approach.....	108
7.6.3	Conclusions.....	112
7.7	The relationship between household disposable income and unpaid household service work - Finland .....	112
7.8	The valuing method of Switzerland: Empirical example with different assumptions on wages .....	114
7.8.1	Empirical example with different wages .....	116
7.8.2	Conclusions.....	117
7.9	Using an output approach to measuring own-use production work of services – United Kingdom’s experience .....	118
7.9.1	Introduction.....	118
7.9.2	Measuring the gross value added of informal childcare .....	118
7.9.3	Measuring the gross value added of household nutrition services.....	123
7.9.4	Conclusions.....	126
7.10	Measuring consumption of fixed capital for own-use production work of services production in Italy, 2002 and 2008.....	126
7.11	Examples of continuous time-use surveys – United States .....	127
7.12	Example of using time-use surveys - a light diary / full diary – Finland .....	128
7.12.1	Introduction.....	128
7.12.2	Data .....	128
7.12.3	Non-response .....	130
7.12.4	Classification of activities.....	130
7.12.5	Results.....	131
7.12.6	Conclusions.....	132
7.13	An example of using a Labour Force Survey module to measure labour input to unpaid household service work – Switzerland .....	133
7.13.1	Introduction.....	133
7.13.2	Implementation of unpaid household service work module into Labour Force Survey .....	133
7.13.3	Surveys.....	134
7.13.4	Key results from the Labour Force Survey - module 2013.....	136
7.13.5	Conclusions.....	140

7.14	Connecting a household satellite account to a health satellite account - Mexico....	141
<b>Chapter 8</b>	<b>Current and Future Research Areas.....</b>	<b>145</b>
8.1	Simultaneous activities.....	145
8.1.1	What are simultaneous activities?.....	145
8.1.2	Why is multitasking important?.....	145
8.1.3	How are simultaneous activities treated in time-use surveys?.....	146
8.1.4	Measuring time spent in simultaneous activities .....	147
8.1.5	Valuing time spent in simultaneous activities.....	149
8.1.6	Conclusion .....	150
8.2	Volunteer work.....	150
<b>Glossary</b>	.....	<b>152</b>
<b>References</b>	.....	<b>154</b>
