

Guidelines on the use of statistical business registers for business demography and entrepreneurship statistics

Contents

Preface	iii
Background and acknowledgements	v
Chapter 1 : Introduction	1
1.1 Importance of measuring entrepreneurship	1
1.2 Statistics for measuring entrepreneurship	2
1.3 Business demography and international comparability	5
1.4 Aims of the Guidelines.....	6
1.5 Overview of the Guidelines	7
Chapter 2 : Definitions and key concepts of business demography statistics	9
2.1 Introduction	9
2.2 Basic concepts of business demography	9
2.2.1 Subject of business demography statistics	9
2.2.2 Populations for business demography statistics	10
2.2.3 Standard statistical unit types	11
2.2.4 Regional business demography	12
2.2.5 Sub-annual business demography.....	13
2.2.6 High-growth enterprises and gazelles	13
2.3 Key concepts and definitions	13
2.3.1 Demographic events and continuity rules.....	13
2.3.2 Coverage	17
2.3.3 Population of active enterprises.....	18
2.3.4 Enterprise births	18
2.3.5 Enterprise survival	20
2.3.6 Enterprise deaths.....	22
2.4 Variables and characteristics of business demography.....	23
2.4.1 Activity classification.....	24
2.4.2 Employment.....	24
2.4.3 Turnover.....	26
2.4.4 Size classes	27
2.4.5 Legal form	28
2.5 Key concepts and definitions of high-growth enterprises and gazelles	28
2.5.1 High-growth enterprises.....	28
2.5.2 Gazelles	29
Chapter 3 : SBR requirements to support the production of business demography statistics	31
3.1 Introduction	31
3.2 SBR and production of business demography statistics.....	31
3.2.1 SBR roles – production of economic statistics.....	31
3.2.2 SBR shortcomings in relation to business demography	32

3.3	Longitudinal business information and a survey oriented SBR.....	32
3.3.1	Live SBR, snapshots and journal tables	34
3.3.2	Creation of longitudinal data	35
3.3.3	Identification of longitudinal units.....	36
3.3.4	Tracking units through time	39
3.4	Characteristics of longitudinal data tables.....	44
3.4.1	Structure of longitudinal data tables	44
3.4.2	Location of a longitudinal data table in relation to the SBR	46
3.4.3	Relation of the longitudinal data tables with the SBR	46
3.4.4	Summary tables/snapshots.....	49
3.5	Data sources, coverage, statistical units and population	49
3.5.1	Data sources.....	50
3.5.2	Statistical units	50
3.5.3	Coverage and Population	50
3.6	Longitudinal data system requirements	51
3.6.1	Regular/scheduled updating and on-going maintenance.....	51
3.6.2	Correction of administrative data and classification variables.....	51
3.6.3	Dealing with changes in methods/SBR redesigns	52
3.6.4	Business rules, quality and governance	53
3.6.5	IT considerations	53
Chapter 4 : Linking the SBR with data from other sources		55
4.1	Introduction	55
4.2	SBR as the core source	56
4.3	Data on enterprises.....	57
4.3.1	Examples of micro data linking	57
4.3.2	Linking trade in goods and services data to the SBR.....	58
4.3.3	Linking group status, size class and foreign ownership	61
4.3.4	Linking with R&D and innovation data.....	61
4.4	Data on entrepreneurs.....	62
4.4.1	Definition of entrepreneur	62
4.4.2	Sources of data on entrepreneurs	62
4.4.3	Populations of entrepreneurs	64
4.4.4	Linking administrative sources to produce data on family businesses.....	64
4.5	Data from surveys – limitations and solutions for MDL.....	66
Chapter 5 : Other approaches to produce business demography statistics.....		69
5.1	Introduction	69
5.2	Mexico: Study on business demography statistics based on economic censuses.....	69
5.2.1	Purpose of the study	70
5.2.2	General characteristics of the study	70
5.2.3	Methodology	70
5.2.4	Results obtained.....	71
5.2.5	Comparison study incorporating continuity rules.....	72

5.2.6	Conclusions	73
5.3	South Korea: Business demography statistics based on administrative data	74
5.3.1	Collection of basic data.....	74
5.3.2	Linking data.....	74
5.3.3	Determining the target population.....	75
5.3.4	Screening provisional births/deaths of enterprises.....	75
5.3.5	Confirmation of demographic events.....	75
5.3.6	Business demography statistics for South Korea, 2016 results.....	76
5.4	United States: Annual Survey of Entrepreneurs.....	78
5.4.1	Purpose of the survey	78
5.4.2	Scope and limitations.....	78
5.4.3	Inputs and requirements	78
5.4.4	Methodology	79
5.4.5	Description of results obtained	80
Chapter 6 : Examples of business demography and related entrepreneurship indicators		81
6.1	Introduction	81
6.2	Core business demography statistics	81
6.3	Statistics on high-growth enterprises.....	83
6.4	Indicators from micro data linking.....	84
6.4.1	Business demography statistics linked with data on individuals.....	84
6.4.2	Business demography statistics linked with other businesses statistics	85
Chapter 7 : Topics for further work and research.....		87
7.1	Introduction	87
7.2	Recommended work and research topics by domain	87
Glossary.....		91
Annex 1: Developing and using longitudinal businesses data in Canada		129
Annex 2: Profiling entrepreneurs by linking business and social statistics in Denmark.....		139
Annex 3: Family businesses in the Netherlands		145
References.....		147
